

# Production Access Questionnaire

## Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

**App Name:** Estoy Ok

**App URL:** <https://play.google.com/store/apps/details?id=com.estoyok.app>

## **Production Access Questionnaire**

**1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?**

*We used a paid testing provider to gather comprehensive feedback on the app's functionality and usability. Additionally, we reached out to some of our target users, families and individuals concerned about safety, to collect real-world insights from the intended audience.*

---

**2) How easy was it to recruit testers for your app?**

*Answer: Easy*

*(You can select your own answer).*

---

**3) Describe the engagement you received from testers during your closed test**

*Testers engaged actively, providing valuable feedback on app features, usability, and overall experience. Their insights led to significant*

*improvements, including enhanced walkthroughs and adjustments to the UI, ensuring a more user-friendly and effective safety platform for families.*

---

**4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.**

*Feedback highlighted the need for optimized ASO text, improved screenshots reflecting app features, additional login options, default English language, and a more dynamic walkthrough. We collected feedback through surveys, direct communication, and usability testing sessions.*

---

**5) Who is the intended audience for your app?**

*Estoy Ok is designed for families and individuals prioritizing safety and well-being. It caters to users seeking real-time monitoring, emergency assistance, and peace of mind, making it an essential tool for those who want to ensure the safety of their loved ones.*

---

**6) Describe how your app provides value to the users.**

*Estoy Ok offers a comprehensive safety platform with passive and active wellness features, including GPS tracking, automated alerts, and emergency*

*assistance. It empowers users to monitor their loved ones effectively, enhancing family safety and providing peace of mind in daily life.*

---

**7) How many installs do you expect your app to have in your first year?**

*Answer: 10k - 100k*

*(You can select your own answer).*

---

**8) What changes did you make to your app based on what you learned during your closed test?**

*We optimized the app's description for ASO, updated screenshots to showcase key features, added Google Sign-in for convenience, set English as the default language, and revamped the walkthrough for a more engaging user experience, enhancing overall usability and appeal.*

---

**9) How did you decide that your app is ready for production?**

*After thorough testing and implementing crucial feedback from users, we ensured the app is stable, user-friendly, and feature-rich. The enhancements made it a reliable tool for family safety, confirming its readiness for successful deployment on Google Play.*

---

### 10) What did you do differently this time?

*This time, we focused on comprehensive user engagement, integrating diverse feedback to refine the app's functionality. We prioritized optimizing ASO elements, enhancing visuals, and improving user onboarding, resulting in a more polished and ready-to-launch safety platform.*

---

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

**Best regards,  
Testers Community Team**
